

Neighborhood  
Club

Dear Neighborhood Club Program Participants and Members:

As the status of COVID-19 is rapidly changing both here in the U.S. and abroad, we are continually monitoring the situation and will regularly update you with information as it becomes pertinent. The safety of our members, program participants, employees, and the community is our top priority.

**The Neighborhood Club Recreation and Wellness Center is fully operational; along with continuing to offer programs at all sites.**

As a practical matter, we are taking extra precautions, including increased deep cleaning and disinfecting of all frequently touched surfaces, washrooms, entrances/exits, handrails and other areas. We also do have multiple hand sanitizing stations throughout the facility for your use.

We are closely monitoring announcements from the federal Centers for Disease Control and Prevention. If any additional directives are given by federal, state or local authorities, we will take appropriate measures to continue protecting your health.

Naturally, we encourage everyone to **practice good hygiene and other healthy habits**, such as washing your hands with soap and water for at least 20 seconds. If you don't have a tissue handy, cough or sneeze into your upper sleeve, not your hands.

Perhaps most important, please stay home if you (or your child) become sick. Limit your contact with others and seek medical treatment if your symptoms persist or become more serious.

**IMPORTANT: IF YOU TRAVEL OUTSIDE THE U.S., ADHERE TO CDC GUIDELINES:** This includes self-quarantines, avoiding non-essential travel: <https://www.cdc.gov/coronavirus/2019-ncov/travelers/faqs.html>

If you have any additional questions or are showing any signs of a respiratory illness (similar symptoms to the flu: fever, cough, shortness of breath) please consult your health care professional. We will also update you again as the situation changes and more information becomes available.

***Thank you for your cooperation!***
